

INQUIRY-FORM

Material specification for Screw Conveyor . Please make a copy, fill in the information available and fax it to - (+91) 8928254229 or e-MAIL— pneuconveyor@gmail.com / info@pneuconveyor.com

A. Customer information

Contact person: _____

Company: _____

Department: _____

Address: _____ Tel : _____

Country/post code/place: _____ eMail: _____

B. Product Information

Materials _____

Bulk Density _____ (gm/cc)

Requested Rate Kgs./hr _____

Characteristics (Check all that apply)

- Agglomerate Granular Powder Stringy/Fibrous
- Free Flowing Bridges Friable Abrasive

Particle Size (microns/mesh) _____

Moisture Content (%) _____

Temperature _____ deg C

Company Name: _____ **Date:** _____

C. Convey Information

Horizontal Distance _____ ft.

Vertical Distance _____ ft.

Diagonal Allowed? Yes No

Material in-feed to Conveyor _____

Material discharge from Conveyor _____

Number of inlets _____

Number of discharge points _____

D. Ancillary Equipment

Bulk Bag Unloader Yes No

Bag Dump Station Yes No

Other _____

E. Conveyor will Operate

Hours/Day _____

Days/Week _____

Weeks/Year _____

Company Name: _____ **Date:** _____

F. Material of Construction

Product Contact _____
 Non-product Contact _____
 Tube/Auger Material: Carbon Steel 304SS 316SS
 Cable/Auger Material: Carbon Steel 304SS 316SS
 Discs: Polyurethane Nylon Polycarbonate
 Wash down required? Yes No
 Water proofing needed? Yes No

G. Electrical Information

Voltage 230V 115V 440 Other
 Class _____
 Division _____
 Group _____

H. Convey Information

Inside Outside Under Cover

Equipment Layout

Please advise any comments, measurements, or other relevant data below:

NOTE: If you send sample material for testing, we need to get it packed in a reusable packaging and together with a safety data sheet. All samples, containers etc. will be sent back to the sender after the trials. The freight charges will be billed to the customer.
